Goulburn Valley Motor Vehicle Drivers Club Inc

Statement of Purposes

To foster recovery, restoration and preservation of all types of self propelled vehicles that fall within the broad meaning of the terms -

Veteran (pre 31-12-1918)
Vintage (1-1-1919 to 31-12-1930)
Classic (1-1-1931 to vehicles older than 25 years)

To conduct the sport of motor vehicle rally driving so as to promote and encourage that sport.

To conduct such events and activities as the Committee considers appropriate to:

(a) increase the members' awareness of our motoring heritage, and
(b) enable the exchange of information and vehicle parts between similar clubs and interested members of the public.

President's Report

It is with great sadness I open this report with the loss of three great members through May and June 2021. Jenny Williams passed away on the 6th May 2021, a member for 46 years – our thoughts are with Daryl and family. Mick Peel passed away on the 16th June 2021, a member for 9 years – our thoughts are with Barb and family. Gordon Threlfall passed away on the 20th June 2021, a member for 6 years – our thoughts are with Lorraine and family.

What a sad couple of months for these wonderful families, all will be sadly missed and always remembered. On behalf of club members, we wish all families our sincerest condolences for your losses.

Our June General Meeting was a no go due to the Covid restrictions re area versus member numbers. For the July meeting, as the Vic Gov Covid restrictions indicate, providing we have a Covid Check-In Marshall and the seating is spaced, all members to wear masks throughout meeting, your Committee (subject to change!!) will conduct a meeting for the 8th July 2021.

We realise this time of the year, quite a number of members have migrated north and of course some members are reluctant to gather indoors. Consequently, since recommencing General Meetings in April 2021, our meeting numbers average 70-odd, which is within the Covid-Safe Square Metre rule for our clubrooms. I do hope we can get together for July meeting.

Just a reminder, Christmas in July is on the Sunday 18th July at the Woolshed Kialla at 12 Midday. Don't forget little presents for Santa to distribute. Big Thanks to the organisers, the Catering Committee.

Our Club's busy Catering Committee are suppling morning tea, lunch and afternoon tea for the Federation Conference to be held on the 7th August 2021. A great team of members.

Again thanks to John Truman, Hughie and Robyn MacFadyen – morning tea and events are being planned for July to keep wheels turning!!

It has been an on-going problem from March 2020 with varying Covid-19 Regulations, sometimes week to week creating havoc for not only your club but for so many people in business, and the indication is not much change for 2021.

Let's hope 2022 is the year of progression. Your committee is endeavouring to keep your Club "idling along" to the best of our ability. As at time of writing this report I look forward to catching up at the next meeting July 8th,but who knows ?!!

Until then keep safe well and importantly, happy.

I have just been advised on completion of this report very sadly Joy Lock, a member of 24 years, passed away on Tuesday the 29th June 2021. A beautiful lady. Our sincerest condolences to Don and family.

Kind regards,

Neil Rutherford

From the Editor

It's been a very sad month for the club with the loss of four long-time members. Our thoughts are with the families of Jenny, Mick, Gordon and Joy. On a much happier note, congratulations to Don and Lorraine Brisbane on their 60th wedding anniversary.

We had an interesting look through the MOVE museum on our coffee run on the 16th. The expanded museum is now huge – several times the size of the previous museum. The car area has grown by about 50%, the truck area is about three times that size and there's that much under roof outside (that can be used for markets, car shows, etc). Plus the Thomson Clothing Collection and the Furphy Museum – fantastic! I can't wait for it to be officially open mid-August.

Unfortunately another swap meet that most of us go to has been cancelled. This year's Bendigo Swap Meet is off, due to the huge amount of extra work that the COVID regulations would have required. It may be a while before we get to another swap meet.

Our Rally of the Valley is still going ahead on the weekend before the Melbourne Cup (29th October-2nd November). An entry form will be available on the Club's website very soon. Full details in the next Journal.

Regards, *Brendan Walsh*

If you're not receiving a monthly email advising of a new Journal being available on our website, then you need to let me know! Just send a message to the Club's email address (top of page 2) and I'll add you to the list. Over 150 members now get this monthly message.

Michael John PEEL
16 February 1947 – 16 June 2021

Passed away at Peter MacCallum Cancer Centre Melbourne,
after a brave battle.
Aged 74 Years.

Loved and loving husband of Barb (married 44 years).
Much loved father and father-in-law of
Murray and Amanda, Aaron and Emily.
Loved and adored Pa to Sari and Kai; Charlotte.
"Catch Ya Later – #33"

As well as being a legend in the CFA and the footballing world, Mick Peel had many, many other passionate interests, not the least of all being his love of classic motoring.

Mick could often be seen with his dear wife Barb at his side, taking a spin in their gorgeous, concours condition, champion red, Austin Healey Sprite. Mick was for many years an active member of the wonderful Shepparton-based, Goulburn Valley Motor Vehicle Drivers Club with whom he enjoyed many classic car outings.

Mick found his beautiful Healey Sprite in Canberra. He drove to Canberra one morning and that very afternoon he trailered his treasure home to Euroa. Amongst Mick's collections also featured a 1300 Series International fire truck. Mick's motor racing enthusiasms also saw him, for approximately twenty years, motoring up to the Bathurst races, accompanied by his great friend, Peter Byrne. Mick's enthusiasm also saw him attending races at Symonds Plains in Tasmania and also the "Muscle Car Masters" at Sydney's Eastern Creek.

Mick was also more than just a casual bicycle rider – he was a keen regular cyclist having completed many of Rotary's wonderful "Ride the Ranges" as well as the renowned "Murray to Moyne" ride in support of the local hospital.

In honour of this special man, local car enthusiasts, as well as members of the Goulburn Valley Motor Vehicle Drivers Club and also a very large number of CFA members with shiny red fire trucks, came together Thursday afternoon. A magnificent motorcade was formed to complete a circuit of Euroa town and finally finish at Mick's beloved Euroa Memorial Oval. Mick's own special Austin Healey Sprite, driven by his son Murray, led this unique and ever so appropriate tribute to this wonderful man – MICK PEEL.

Rally Report Follow-Up

You may have read Ken O'Connor's report on the AHMF Tour in the May and June Drivers Journals. In the second part of that report, Ken reported on a visit to Lieschke Motors, the long-time Holden dealership in Walla Walla NSW. There they met Cec Lieschke, a descendant of the family members that started the business in the early 1920s.

Coincidentally, the dealership was featured on a recent episode of Classic Restos, hosted by Fletch. You can find all the episodes at https://www.shannons.com.au/club/videos/channel/classic-restos/ . This was episode no 47.

There are lots of interesting topics in previous episodes, including the 2017 Shepparton "Shake Out" 50s festival, Crawling the Hume, The Depot in Deniliquin, the Shepparton Motor Museum, Nathalia Show and Shine and lots more. Well worth a look.

Back in the June 2020 Journal, I included a series of 1924 ads for American car makes that most people would not have heard of. One of these was the Jewett, which was made by the Paige-Detroit Motor Car Company from 1922 to 1926. The company was bought by the Graham brothers in January 1927 and the Jewett was rebadged as a Paige for that year. In 1928 it was rebadged as a Graham-Paige for that year only.

Graeme and Ross Smith sent me a message about this make.

Our father owned two Jewetts when I (Graeme) was a kid. The 1924 Jewett Special was parked by the creek where our family grew tobacco, east of Nathalia. The wheels were removed and made into a four-wheeled trailer. I sold the trailer at a clearing sale in 1990. The body with motor was sold to Peter Gallagher to make a racing car. It never was to be.

The second Jewett was a later model two-door sedan, not sure what year. He sold it and bought a 1934 Chev. We have never seen a Jewett since.

Coffee Run to Emerald Bank, Kialla – 16th June 2021

29 members met at the Milestone Café for coffee before being taken on a tour to view the progress of the rebuild of MOVE. The renovation/rebuild costing about $5.35million includes the adaption of many exhibits all rolled into one venue.

There will be a car section, a truck section, much of the Holden Trust collection, The Loel Thomson Clothing Collection which traces Australian fashion from as early as the First Fleet, The Furphy Museum, a Harley Davidson exhibit, an extended mezzanine floor and a host of ancillary collections.

A magnificently engineered turntable will display a "hero car" at the new entrance. Shepparton artist Tank's art adorns a vintage radio collection area.

Another feature is the outdoor undercover area perfect for all weather market days and for car shows. This venue will firmly place Shepparton on the motoring world map.

Lunch at the Peppermill Inn concluded another great coffee run.

Saturday Social Day, Clubrooms – 19th June 2021

We had a great turnout for a last Saturday Social Day, considering it's winter and a few of our members head north to chase the sun. We had a phone call from Col and Glad who are enjoying their time in Queensland and send their regards.

Our lunch included pies, sausage rolls and cocktails. It was nice to share good conversation and good food.

Our next Saturday Social Day will be on 24th July. Please bring a casserole to share.

Weekend Club Run to Deniliquin / The Depot – 19th-20th June 2021

38 members enjoyed the weekend. Leaving the clubrooms at 9am we then met at Tocumwal for coffee before travelling to Deniliquin RSL for lunch.

On Saturday afternoon we toured the Depot Museum. The Depot has grown around the historic vehicle and memorabilia collections of the Purtill family. Collecting vehicles that they love, which they have named and that tell a story, the Purtills had a dream of taking the collection out of dusty sheds to create and ever-evolving space where history can be experienced and enjoyed.

The Depot collection is housed across a 3,000 square metre complex with plans to extend to allow for the remaining collection to be put on display.

Next to the complex is the Cruzin' Diner, another space where you can step into the past and enjoy an immersive 1950's experience. Decked out to the max with vinyl booths, neon signs, 50's tunes and a flavoursome menu.

Saturday evening meal was at the Deniliquin Bowls Club Restaurant where you could choose from the Chinese or Australian menu and Sunday breakfast was cooked by members of the Deniliquin Bowls Club.

Our final group stop for the weekend was to the Historical Society Museum, a very comprehensive display of things from the past.

Peppins Heritage Centre with its Wanganella/sheep display and also the Deni Water Tower with its Kookaburra mural were some of the other attractions enjoyed.

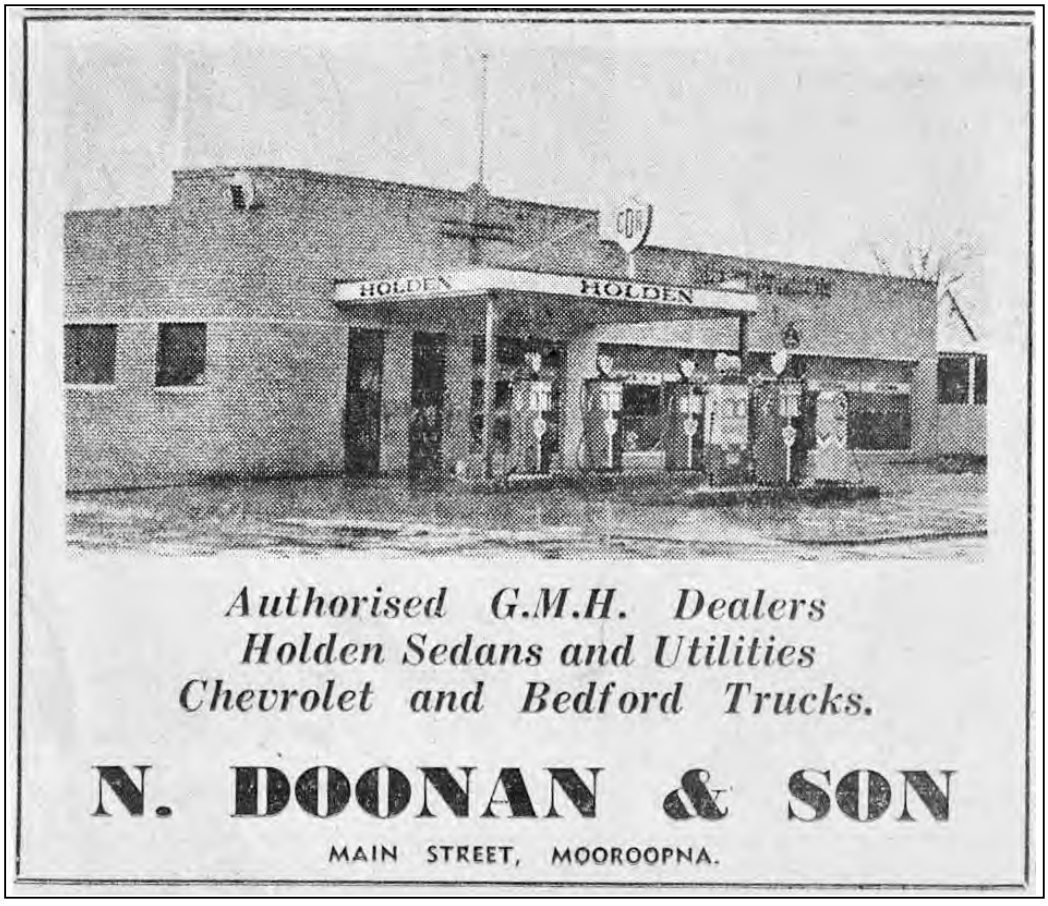
Old Garages

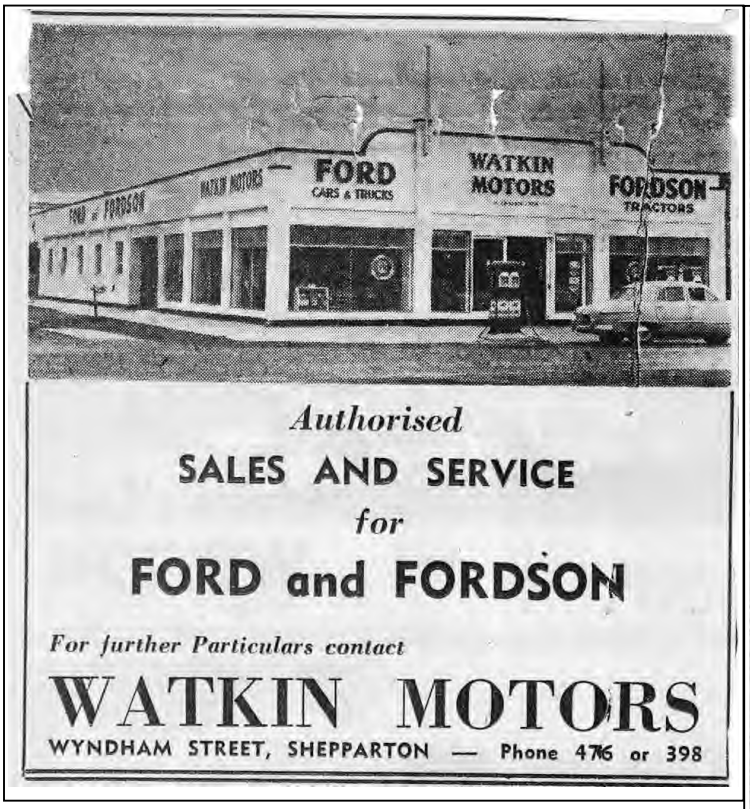
Ross Organ dropped in a few old newspaper clippings of local garage ads. He worked at Doonan and Guppy when he was younger.

How many do you remember?

↑ *Pitts Motors was originally Pettifer Motors and at one time was owned by Watson and McCabe of Shepparton. They sold the business to H Pitts and Son in the 1950s. The building is on the south-east corner of Allan and Bishop Sts.*

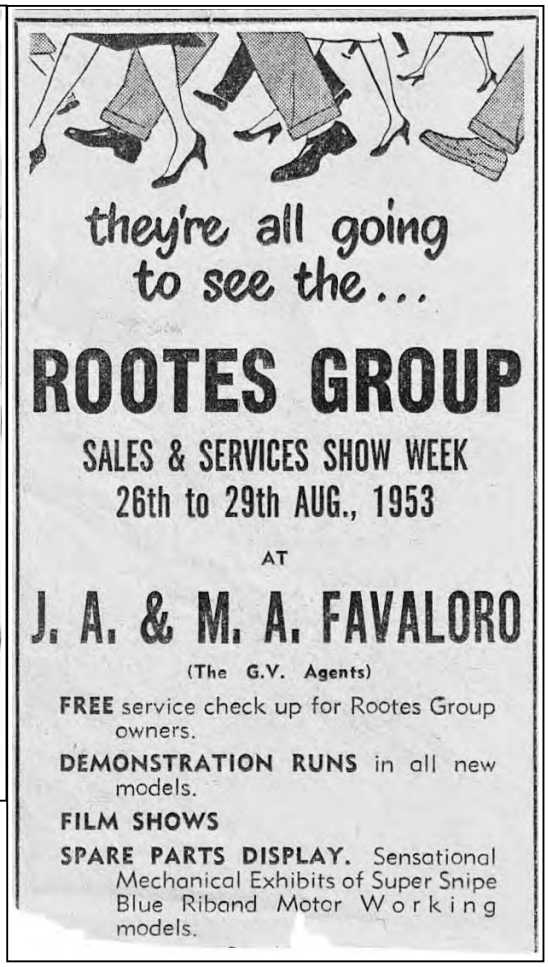
← ↓ *Doonans were on the north-east corner of McLennan St and O'Brien St, Mooroopna. The building is still there, including the driveway canopy.*





↑ *Watkin Motors was on the north-west corner of Wyndham St and Nixon St. CTG Smith Motors was later on this site. Check the photo on p21 of the September 2020 Drivers Journal.*

↓ *Devine Motors started at 89 High St (where Target is now) and later moved to 159-165 High St (now Pack and Send).*



↑ *The Favaloro showroom was located at 158 High St and was the agency for the Rootes Group of vehicles – Humber, Hillman, Sunbeam Talbot.*

MOVE Update

Just add classic cars: Museum of Vehicle Evolution board member Peter Bicknell in the vast space of the new MOVE facility at Kialla. It's waiting to be filled with cars, trucks, motorcycles and other historic and modern vehicles. Pictures: Megan Fisher

Motoring mecca top MOVE

THERE'S A NEW MUSEUM — AND IT'S HUGE. EMERALD BANK'S INSPIRED MOVE HAS HORSEPOWER TO BURN

It's big. So big you could drive a truck through it.

In fact, you could drive several trucks, a fleet of cars and a posse of motorcycles through the newly expanded Museum of Vehicle Evolution in Kialla.

Throw in a vast collection of clothing, jewellery and accessories dating back more than 200 years and you have a tourism drawcard of national, if not global, potential.

Some Goulburn Valley locals have been offered a glimpse of the giant new space which has emerged over the past nine months at Emerald Bank in a series of ''sneak peek'' tours.

The tours have been hosted by museum staff and board members over the past week, ahead of the facility's official opening in August.

Work began on a $5.3 million 3000 sq m extension to the existing Shepparton Motor Museum in September last year.

Now the building is ready to bring in the star attractions, the first of which greets visitors after stepping through the entrance.

Under the theatrical glare of spotlights sits a gleaming red 1960 Chevrolet Impala owned by a well-known Shepparton car collector.

The car slowly revolves on a turntable built and donated by Mooroopna's Parsons Engineering – another example of the passion and generosity of local auto enthusiasts.

MOVE board member Peter Bicknell said the Impala was also an example of the ''wow factor'' the museum wanted to create.

''There will be a series of 'hero' vehicles at the entrance which will change every few weeks,'' Mr Bicknell said.

Driving force behind MOVE and philanthropic contributor Jim Andreadis led a group of Rotary Club of Shepparton members into the Loel Thomson fashion and accessory collection, displayed in a climate-controlled room inside the huge complex.

''This collection goes back to the First Fleet and shows clothes that people wore every day – it's not haute couture, it's more of a social history collection,'' Mr Andreadis said.

Towards the rear of the building sits the revamped Furphy Museum, which houses an expanded collection of items from the 150-year history of the iconic Shepparton brand.

Outside is a large undercover concreted area which can be used for farmers' markets and vehicle launches.

Stepping back inside, Mr Andreadis leads sneak peek visitors into the Kenworth Pavilion – a cavernous space which will house examples of trucking history from the early part of the previous century to the present.

Already in place is the first Kenworth truck purchased by Shepparton's legendary truck operator Ted Phillips. The 1978 Kenworth has returned to Shepparton from Alice Springs to be displayed at the new MOVE.

Mr Andreadis said a unique factor of the museum was that nearly all of its exhibits had been donated.

''They are all on loan – and that's the way we want it. This gives us much more flexibility to be dynamic and change exhibits every few months or so,'' he said.

Touch screens will also be installed around the exhibits with information and video displays.

Mr Bicknell pointed to a mezzanine floor which could be used for private parties and corporate events.

''We could broadcast the Bathurst supercars live onscreen and host an audience here,'' he said.

Mr Andreadis believed the new museum had the potential to boost Goulburn Valley tourism.

''We believe we can get people to change their travel plans and spend a few nights here — visit us as well as SAM, Longleat and Tallis wines and all the other fantastic things we have around here,'' he said.

An official launch party for the new Museum of Vehicle Evolution is due to be held on Wednesday, August 18 with the facility open to the public soon afterwards.

From the Shepparton NEWS, 28 June 2021

It's a massive MOVE

LOOK UP IT'S A SIGN OF THE BIG SHEPPARTON DRAWCARD THAT'S ON THE WAY

A semi-trailer carrying only two letters gives you an indication of how big Kialla's new Museum of Vehicle Evolution's sign is.

The giant lettering is an engineering feat of its own and now sits prominently atop the front entrance to MOVE at Emerald Bank.

Inside, some lucky members of the community have been getting a sneak peak of progress, but by August 20 everyone will be able to visit Shepparton's newest major attraction.

Big job: A semi-trailer carrying only two letters gives an indication of how big the new MOVE sign is.
Inset: The giant lettering is an engineering feat of its own and it now sits prominently atop the front entrance to MOVE.

Keatings join MOVE legends

Ken Keating might be in his 80s but he's working as hard as ever.

KEATING Freight Lines started in 1982, but Ken was active long before that carting local produce and helping to keep the wheels of Shepparton's manufacturing businesses turning.

This week Ken took time out from his trucking business to have a look around the new Museum of Vehicle Evolution with sons Mark and Steve including where his firm will occupy a place amongst the transport legends.

For Ken it was extra special, because he amongst the first small group of people who came up with the idea of pushing for a museum space that celebrated the history of transport in the region and its contribution to our modern day prosperity.

"It is fantastic, it will be the greatest thing for the Goulburn Valley, there is no doubt about that," he said.

Ken and his brothers started up in transport in Bendigo and Swan Hill until Ken left the business and joined Streets ice-cream in Shepparton. After a year he tossed it in and got back on the road carting fruit and all manner of goods.

"How we drove those trucks on those roads in the day I'll never know," he said "My first trip to Sydney was 17 hours."

Ken will promote MOVE on his trucks as they travel around Victoria, but he has no doubt the addition of transport to the museum will be a huge drawcard.

The company has a special truck to display at MOVE along with a miniature version.

MOVE is opening in August with unmissable displays of cars, trucks, motorcycles, bicycles and collectables. MOVE also incorporates the Loel Thomson Clothing Collection and the Furphy Museum.

Club Permit Scheme

The Federation and the AOMC have been liaising with the Department of Transport regarding proposed changes to the Road Safety (Vehicles) Regulations 2021. The Department had released a regulatory impact statement on 11 June available for download on the Engage Victoria website – the link is https://engage.vic.gov.au/road-safety-vehicles

Member clubs were asked for comment on these changes, some of which related to the Club Permit Scheme. These include :

- Change the eligible age of permitted vehicles to 30 years, with some concessions for buses and military vehicles.
- Requiring evidence to accompany applications for club permits (incomplete application and renewal forms). In some cases clubs are not providing correctly completed forms to the authority.
- Providing for new penalties for offences of the operating conditions of the club permit and penalties for specific offences for logbook obligations
- Introduce a definition for a replica vehicle for the purpose of vehicle eligibility for the CPS to mean a light motor vehicle that is an individually constructed vehicle that resembles, as close as practicable, the appearance and dimensions of the equivalent production vehicle
- Adjust permit fees to see parity with full registration fees.

Electronic logbooks are being considered, but there is no suggested change within this documentation. Please note there may be implications for classic and historic vehicles within the other proposed changes, particularly to the regulations concerning written off vehicles.

Only 7,500 Americans can get a new Jaguar this year . . .

You just can't mass produce a superb car like the new Jaguar XK150 Roadster. Witness the painstaking workmanship, the clean, smooth-flowing lines, the sports car simplicity. This newest Jaguar is the proud inheritor of Jaguar's racing traditions. Yet roominess, luxury and ease of handling make it the road car sans pareil.

In case you need an excuse to buy a Jaguar:

New features – *New* 4-wheel disc brakes, *New* one-piece wind screen, roll-up windows, convertible top. But the XK150 and XK150S retain all the Jaguar qualities connoisseurs cherish.

Performance – The famous Jaguar engine provides quiet surging power for starts and safe passing. The Jaguar suspension system prevents roll, pitching, wavering.

Resale Value – You get unbelievably high trade-in because Jaguar, the finest car of its class in the world, stands up for thousands of miles beyond expected "normal" standards.

Stolen

Message from Don McPherson –

STOLEN TRACTOR RADIATOR – KATAMATITE

I would really appreciate if the members of the GVMVDC could keep an eye out whilst they are looking online and at swap meets for parts in the future, for a radiator that was stolen recently from our 21-32 Twin City tractor that is on display at Lions Memorial Park in Katamatite Victoria. This tractor has significant history to this area. It was purchased new by TP Batey from Yabba who was renowned in this part of the world for his travelling contract chaff cutting business. He upgraded to the Twin City to replace his steam traction engine as it was slow and needed a team of men to cart water and cut timber for the boiler. After the decline of chaff required for working horses on farms, he sold the Twin City to my grandfather Alec Young where it spent the rest of it's working life at Alrudale Estate Katamatite. In the 1980's my uncle, Les Young, donated the Twin City to the local community and the Lions Club put it on permanent display at Lions Memorial Park Katamatite.

The radiator is painted yellow which is not the right colour for these early Twin City tractors. It should have been painted grey, so this should make it more noticeable (a cast Twin City radiator that is yellow). It has **Twin City** with the **TC** emblem in between and the large numbers **21** and **32** either side of the crank handle hole, which is the model.

If anyone happens to see it on line or at a swap meet in the future please take a photo or screen shot and take note of the site number (site holders can be traced) and contact me on 0412-851 325.

Don McPherson
President of the Katamatite Historical Society.
