This survey attempts to collect information to serve two purposes:

- 1) Your ideas about the club.
- 2) Information that enables us to construct a story about members input of time, money and the enjoyment they gain from a heritage motoring hobby.

ANSWER ALL QUESTIONS?

Our club includes a wide range of member perspectives. Some questions may not be relevant to you, so just leave them and move onto the next one.

WHAT IS OUR NEW INTEREST IN HERITAGE **MOTORING?**

Australian legislation on timelines for reducing carbon dioxide emissions is about to be settled. This will give rise to all manner of agencies and community groups placing value judgements on various activities and inevitably some judgements will generate new controls.

Increasing community acceptance of public policy that discriminates against the internal combustion engine (ICE) has started here. In many overseas countries it is well entrenched with controls such as annual emission checks, particular emission levels to be eligible for registration, restricted locations where an ICE can operate, and discouragers such as fuel excise and targeted registration fees.

We intend to assemble facts, based on your responses, to show that heritage motoring has an important place in our community. It is about being able to assemble evidence that positions our hobby in a well-respected light. Afterall, we are the custodians of the evolution of over 100 years of innovation in design and engineering that has been the primary way we moved around this country.

Part of this exercise will involve contrasting our hobby with numerous other pastimes that engage citizens. The comparison is not just about carbon fuel use; it also needs to take account of enjoyment, social interaction and community benefits.

The results of the survey will assist the club in developing a rational and sensible approach to future challenges. It will also assist the AOMC and the Federation of Veteran, Vintage and Classic Vehicle clubs to have factual arguments they can use to engage with our State and Federal politicians.

SUBMITTING YOUR RESPONSE

We wish to have responses by **November 10th 2022**, the date of the Annual General Meeting. Either bring your completed survey to a club event (run or meeting), or post it to PO Box 704, Shepparton 3632, or even hand deliver to 80 Laws Drive Kialla.

Part A: ABOUT YOU

How many historic vehicle clubs (i.e. cars, trucks, motorcycles machinery, etc.) are you a member of?	5,
1	
When the club started, some 52 years ago, a membership was generally regarded as an opport for a husband or wife to each gain some level of enjoyment or benefit. These days many couple choose to be regarded as being involved as partners. This part of the survey attempts to gain information that provides some demographics about these members. If you would prefer no provide answers to these questions please leave them blank and move on to Parts B, C, D and	ples t to
₩ What is your Age Group:	
Partner 1: What do you identify as: Male Female Other	
40 50 60 70 80	80
Partner 2: What do you identify as: Male Female Other Other	
<30	80
What is your Work Status: Partner 1:	
Working Full-Time Working Part-Time Self-employed	
Retired Other	
Partner 2:	
Working Full-Time Working Part-Time Self-employed	
Retired Other	

Part B: YOUR VEHICLES:

NOTES:

- 1/. Only provide details for fully registered vehicles if the registered vehicle is veteran, vintage or classic.
- 2/. A sis a commercial vehicle with a load limit in excess of 1 ton.
- 3/. A 'project vehicle' is any unregistered vehicle that you will register or place on club permit at a future date.
- 4/. 'Club Permit' refers to any club permit vehicle that you have irrespective of which club the permit has been obtained through.
